OBJECTIVE BAYES, PHILADELPHIA, 5-8 JUNE 2009

O-Bayes09, the 2009 International Workshop on Objective Bayes Methodology, will take place on June 5-8th 2009 at the Wharton School of the University of Pennsylvania, Philadelphia, PA, USA. Following earlier meetings on objective Bayes methodology (held in Purdue, USA, 1996; València, Spain, 1998; Ixtapa, Mexico, 2000; Granada, Spain, 2002; Aussois, France, 2003; Branson, MO, USA, 2005; Rome, Italy, 2007), the principal objectives of O-Bayes09 will be to facilitate the exchange of recent research developments in objective Bayes methodology, to provide opportunities for new researchers to shine, and to establish new collaborations and partnerships that will channel efforts into pending problems and open new directions for further study. O-Bayes09 will also serve to further crystallize objective Bayes methodology as an established area for statistical research. The workshop will consist of a series of invited talks followed by discussion and one or more sessions dedicated to contributed posters. On June 4 there will be a short course on Objective Bayes methodology for graduate students and other interested participants. Admission to the short course will be free.

Organizer Edward I. George. The Wharton School. Statistics Department,

**INTERNATIONAL CONGRESS OF MATHEMATICIANS
HYDERABAD, INDIA, 19-27 AUGUST 2010**

The venue of the ICM-2010 will be the Hyderabad International Convention Centre, a state of the art facility for holding large meetings such as ICM 2010. The City of Hyderabad (check for more information on Hyderabad) is accessible directly from some international airports in Europe right now and we expect from many more by 2010. A brand new international airport is to become operational in March this year (2008). The city is well connected both by air and surface to all the major metros in the country: Delhi, Mumbai, Kolkata, Chennai, Bangalore.

The Congress is structured in the traditional manner with the main activity being the Plenary and Sectional invited lecturers, the sectional talks being held in 7 or 8 parallel sessions. Efforts will be made to avoid overlap of talks on closely connected themes that may fall in different sections. There will also be paper-reading and poster sessions as is usual. The Organisers will also arrange special events such as non-technical talks connected with promotion of mathematics as well as cultural programmes.

There will be satellite conferences associated with the congress in different locations in the country.

Links have been provided to Congress related matters under specific heads, but some of these are still under construction. They will all be up-dated from time to time.

Important Dates

Here are some important dates, all in 2010:

Deadline for grant application: **January 1st**

Opening of registration: **January 1st**

Call for submissions of abstract of short communications, posters and mathematical software contributions: **January 1st**

Deadline for visa invitation letter application: **February 28th**

Deadline for submissions of abstract of short communications, posters and mathematical software contributions: **March 30th**

Information of grants awarded to applicants: from **May 1st**

Deadline for registration at reduced rate: **May 15th**

Deadline for notification to authors of acceptance or rejection of their contribution: **May 30th**

General IMU Assembly, Bangalore: **August 16th-17th**

Registration: **August 19th**

**8TH WORLD CONGRESS ON STRUCTURAL AND MULTIDISCIPLINARY
OPTIMIZATION**

1 - 5 June 2009, Lisbon, Portugal

The Official Congress of ISSMO

International Society for Structural and Multidisciplinary Optimization

GENERAL TOPICS:

Structural Optimization, Multidisciplinary Design Optimization, Engineering Optimization and Inverse and Identification problems, Optimization of Thermal and Fluid Engineering systems, Engineering Optimization Techniques and Methods

Emerging Areas: advanced and adaptive materials, bioengineering, MEMS, ecodesign, multibody system dynamics, multi-scale modeling.
