EURO Mini Conference on Improving Healthcare: New Challenges, New Approaches Coimbra, Portugal, 30 March – 1 April 2015

www.minieuro2015.com

Scope and objectives

Recent advances in medicine allow us to live longer and healthier lives. These advances have been made possible through the joint contribution of very different scientific fields. Healthcare is nowadays better understood as a multidisciplinary field, with increasing number of challenges that can be better tackled by joint collaboration of researchers with different scientific backgrounds.

11TH INTERNATIONAL WORKSHOP ON OPERATIONS RESEARCH

Havana; March 10-13, 2015

Main Themes: OR & Human Welfare: Health Environment and Education

Organized by:
Universidad de La Habana
Université Paris 1, Panthéon-Sorbonne

Aim of the Workshop

The workshop is devoted to the applications of the models and methods of the Operations Research in decisions problems related to the harmonic development of human beings and their environment. The main aim is to promote the interchanges around applications of OR in the medicine, biological and social researches oriented to human welfare. We foster papers that provide cross-fertilization between these topics. We invite interested researchers to organize stream sessions not only dedicated to a certain topic but to different approaches to the same problem as well.

The Authors of the papers presented at the conference will be invited to submit a reviewed version to the journal *Investigación Operacional* with no additional cost.
