**EURO Mini Conference on
Improving Healthcare: new challenges, new approaches
Coimbra, Portugal, 30 March – 1 April 2015**
www.minieuro2015.com

Scope and objectives

Recent advances in medicine allow us to live longer and healthier lives. These advances have been made possible through the joint contribution of very different scientific fields. Healthcare is nowadays better understood as a multidisciplinary field, with increasing number of challenges that can be better tackled by joint collaboration of researchers with different scientific backgrounds.

13th International Work-Conference on Artificial Neural Network (IWANN2015)
June 10-12, 2015 in Palma de Mallorca, Balearic Islands, (Spain).

<http://iwann.ugr.es/2015/>

This biennial meeting seeks to provide a discussion forum for scientists, engineers, educators and students about the latest discoveries and realizations in the foundations, theory, models and applications of systems inspired on nature, using computational intelligence methodologies, as well as in emerging areas related to the above items. We strongly emphasize the wide range of topics comprised under the umbrella of IWANN2015, covering all the fields that are usually referred to as "Computational Intelligence". In this edition we are particularly interested in submissions dealing with: Artificial Neural Networks, Fuzzy Systems, Evolutionary Computation, Machine Learning, Artificial Cognitive Systems and Multidisciplinary Approaches

Andreu Català, Gonzalo Joya, Ignacio Rojas
