Report

The 11th INTERNATIONAL WORKSHOP ON OPERATIONS RESEARCH was organized by Universidad de La Habana and Université Paris 1, Panthéon-Sorbonne. It was cosponsored by Asociación Latinoamericana de Investigación Operativa (ALIO), Benemérita Universidad Autónoma de Puebla, American Statistical Association, Asociación Mexicana de Estadística, Sociedad Cubana de Matemática y Computación (SC Investigación Operacional), Red Iberoamericana de Estudios Cuantitativos Aplicados (RIDECA) and Oficina del Historiador de La Habana. Among the new interesting activities was the Colloquium on Teaching Effectiveness organized by James Colloquium on Teaching Effectiveness organized by J. Cochran (University of Alabama).

The increased partnership among colleagues in academic, medical institutions and administration was evident, as over 60 papers were delivered as plenary and main talks, as well as in contributed presentations. In this edition were developed participative activities, in a panel and a symposium, where physicians, journalists, agronomist, economists, physicists and mathematician discussed openly on challenging open problems arising in issues as teaching, Dengue, VIH, model for neural research, analysis of large text data bases.
